

SIMTREDA

Trends in Heritage Microbiology

Francesca Cappitelli – Università degli Studi di Milano

This webinar offers a comprehensive and updated overview of the potential of microorganisms in the deterioration and preservation of heritage materials (from traditional inorganic and organic materials to modern synthetic polymers). The presentation provides evidence on the unique and peculiar role environmental microbiology plays in addressing contemporary issues and challenges in cultural heritage conservation.

May 31st, 2021, 2-3 p.m.
