SIMTREA

*Summer school on “Animal gastrointestinal microbiome
(foregut, midgut and hindgut): exploring the relationship
between microbial communities and fatty acids”
Florence, June 19-23, 2023*

Application procedure

The course is reserved to young researchers (e.g. PhD students, postdocs).

All participants will be accommodated in hotel or at the residence of the University of Florence (double room).

For participants touristic tax, travel costs and meals are NOT included.

Completed applications (see form below) should be sent before **March 31st 2023** by e-mail to carlo.viti@unifi.it specifying as subject of the e-mail “Summer School 2023 – (Applicant Name)”. Applicants will receive a notification of e-mail receipt.

A committee will select the applications based on the submitted CV and the research motivation statement in the application form.

Selected applicants will be notified before **April 30th, 2023**.
